Mr Ken Celli
State of California Energy Resources Conservation & Development Commission
RE: STATUS REPORT IN SUSPENSION – HIDDEN HILLS I & II LLC's

In line with the commission's request for a quarterly status update to supplement the conditions of suspension for the Hidden Hills Solar 1 & 2 Applications for certification, the applicant provides the following status updates.

Offtaker/PPA:

The applicant is actively monitoring and participating in the 2015 renewable procurement RFO's with CA IOU's. The 2015 procurement window will run through Q2 2015 wherein the applicant will be bidding-in the BrightSource power tower CSP platform. It is expected that the IOU procurement process will provide enhanced transparency pertaining to the permitting and construction schedule for the Hidden Hills CSP project.

Land/Project Status:

The applicant continues to coordinate directly with the land-owner (Wiley Trust) to market the property to potential project partners capable and interested in funding the completion of the Hidden Hills AFC process.

Please don't hesitate to contact us directly with any questions or clarifications going forward.

Sincerely,

Charles Turlinski
